

# Instructions

## Rubber Inlay intergange:

Before assembling your YEYKEY Sunnies, make sure that all parts are dry and clean.

**THE INLAYS ARE DESIGNED TO BE INSERTED FROM THE BACKSIDE OF THE FRAME.**

To assemble simply place the triangular inlay over the triangular cutout in the frame and slowly apply pressure until it fits in tight.

The earpiece inlays are assembled just as the triangular ones.

### NOTE:

The earpiece inlays are designed symmetrical, so each rubber inlay will only fit on the designated side!
